VISA APPLICATION PREPARATION

Four passports in. One printable family pack out.

Your team types the same passport into four forms. Safr reads it once.

The documents arrive. The admin begins.

30–60 min

to fill one application by hand

YOUR AGENCY

___ files a month × 45 min = ___ hours of retyping

Retype the same traveller details

The same passport goes into every form, for every family member.

Correct mistakes and rework

One missed detail can send the pack back for edits.

Finish after the customer has left

Preparation spills into late nights.

Range reported in the founders' conversations with agencies. We replace it with your timed result after a counter session.

You supply the documents. Safr prepares the pack.

01 / UPLOAD

Scan passports and Emirates IDs

Safr reads names, numbers and expiry dates, and flags unreadable pages.

02 / PREPARE

Fill the form. Build the pack.

Family members are linked under one trip. Common issues are flagged for your team.

03 / REVIEW

Check the flags. Sign off the file.

Your team checks every field and signs off the final file. Declarations and signatures stay with the applicant.

04 / PRINT

Download one PDF. Hand it over.

Print the reviewed pack, with a cover sheet for VFS, TLS or BLS.

Supported today: Schengen and Japan official forms, filled. UK Standard Visitor and US DS-160 question guides. Safr prepares documents; it does not book appointments or submit applications. Visa decisions remain with the authorities.

THE DELIVERABLE

One printable pack. Not scattered files.

Less retyping

The traveller's documents fill the application.

Problems caught before you print

Expiring passports and missing consent letters are flagged at review.

A cleaner handover

The customer leaves with one prepared pack.

APPLICATION PACK / PDF

- Cover sheet and checklist
- Embassy-form application
- NOC and parental consent
- Travel itinerary
- Supporting documents

Contents depend on the case and documents supplied. Generated documents need review and any required signatures. Illustrative pack structure.

YOUR CLIENTS' DATA

We keep passport details, never the scans. Locked to your agency.

SCANS / NOT KEPT

Read in memory, then discarded

Passport and Emirates ID images are read in memory and deleted once the details are extracted. They are never saved to disk or to cloud storage.

DETAILS / KEPT FOR YOUR AGENCY ONLY

What we store

Names, passport and Emirates ID numbers and expiry dates, trip details, family links and form answers. Each record is locked to your agency. No other agency can see or search it.

We sign a data processing agreement with your agency before your first real file.

Two weeks free.
Then a pilot with a guarantee.

PRICING / AED

FOUNDING AGENCIES

90-DAY PILOT · AFTER TWO FREE WEEKS

3,000 AED

Up to 150 applications over 90 days

Money-back guarantee

If Safr doesn't save your team 30 minutes a file on your first 10 pilot files, we refund the full AED 3,000.

Start with two weeks free

Run your real files through Safr. Decide once you've seen the time saved.

After the pilot: AED 1,500 a month

50 applications included (AED 30 each). Extra applications AED 40 each. Unused credits roll over one month.

We work alongside your team

Setup at your counter and a review day each month during the pilot.

Prices exclude VAT.

NEXT STEP / ONE REAL CASE

Bring one family file.
We'll time it with you.

We time one real case at your counter, side by side with how you do it today. If Safr saves you time, your two free weeks start that day.

BOOK A COUNTER SESSION

safr-embassy-ready-travel.lovable.app

Use a consented or redacted case. Schengen and Japan forms are filled today; UK and US are guided.
